

# Radio Adelaide Exposé

Computers, The Internet, and Web Sites are common place these days. Our homes are now information centres for almost anything we want to know. Via the internet we can **find cures for our toothache** or access information on **Who is likely to win the next Federal Election**.

The expanding horizons of radio have made it possible for us to 'keep an eye' on what has occurred or what is about to occur in the world of **Country Music**.

I spend a great deal of time listening to music on radio and on my computer; and it's only recently that **Radio Adelaide** have introduced additional facilities, allowing us to enter the world of their **Radio Station**.

Log on to [www.radio.adelaide.edu.au/](http://www.radio.adelaide.edu.au/)  
And this is what you will see...

There is so much interesting information available on **Radio Adelaide's** website.

However let's concentrate on **Country Music**.

You can listen on-line to your favourite radio hosts.

**Wally, Fred and Tammy** each have their song lists showing on line for you to see and you can enter you or comments so that **Radio Adelaide** can accept your feedback.

Maybe you can make a song request for that special person in your life?

To talk briefly to your Radio Host while they're transmitting on air  
**Phone 8303 2000**

To begin your exploration of **Radio Adelaide** Click on the **Music Programs Playlists** close to the centre of the pic on the left.

If you want a **tour of the Radio Station** See **Contact Us** On page 7

**Happy Surfing!**
