Doug's Words of Wisdom

As a few words of advice for
upcoming artists.
All I can say is that everyone's
path to getting to where they
want to be will be different; so
don't get distracted from what
you need to be doing by what
others tell you you should be
doing.

The best thing you can do is sing/play/write what feels
most natural for you - not for what you think other people
want to hear and what is fashionable right now.
Most importantly, take advice politely and graciously...
then throw half of it out the window! Always do what
feels right for you.

Cheers Doug Bruce

Doug Bruce Tells Us About His USA Trip

"My band, **The Tailgaters**, and I along with our
honourary Tailgater, **Sandra Humphries**, spent the
month of June in **Texas and Nashville**.

The tour kicked off with an outdoor concert in Aubrey,
Texas. The scorching summer heat did little to stifle
attendance as concert organisers reported the largest
crowd since the Concert in the Park series started in 2009
with crowd estimations at 1500.

Nashville was the next stop with performances daily at
the Tomkins Guitars Showcase. While in Nashville I also
had the thrill of performing my new single "**Coffey
Road**" at the Country of The Country shows held at
the **Texas Troubadour Theater** and benefitting the
Christmas for the Children charity. Other performers
on the night included my good friend **Billy Yates**, as well
as **Daryl Worley, Jeff Bates, Marty Raybon, Julie
Roberts, Buddy Jewell, The Whites** and many others.
