

## That Woz the Day That Woz!

16<sup>th</sup> January 2011

**Eddie & Friends** brought back a lot of memories by playing a lot of the real early country music. Its was a very entertaining afternoon of old time country favourites. So tell you friends all about the **Venue with the Menu..**

Hi Folks,

Well what can I say !! It was great from the start to finish. The band for the day was Eddy & Friends which Consisted of Darrel on bass and harmonies, Irish Dan on rhythm and vocals, Peter Harpman on drums and vocals, and last but not least Eddy on lead guitar, rhythm and vocals.

They sang songs which every one could relate to with some members reporting back to the committee saying it was the best band we have had for ages, and when were going to get them back. But unfortunately you will have to wait awhile. We only ever have each band once a year. We do have other bands booked for this year.

We had no guest artist or walk ups ,but that didn't matter as the band had plenty of songs for the day and kept the dance floor full all day.

Although numbers were down slightly than previous show's, we still had a good crowd for the this time of the year and we were more than happy with that.

Good bye for now and remember to keep it country.

Regards Fred Payne

## BLUE DOG CLOTHING

We've got the  
Butts of Australia covered!

Thanks Blue Dog for Sponsoring  
Gawler Country Music Club
