

# WILLIE NELSON

Within the culture of American Country Music very few are more respected than Willie Nelson.

As a songwriter and performer he has reached out to the world with his classic hits **Crazy, On the Road Again, Seven Spanish Angels** and the list goes on and on.

Now at the age of 74, Willie Nelson has become a national treasure, contributing many memorable songs to the genres of pop, folk, blues and country.

Contrary to much negative news media, Willie's impact extends far beyond the scope of his music.

A champion of family farms, Willie Nelson has helped mobilize support for American farmers as a founder of Farm Aid.

In his years of experience Willie has associated and worked with artists such as **Waylon Jennings, The Highwaymen, Johnny Cash, Kris Kristofferson, Ray Price, Merle Haggard, U2...**

Willie's latest release is his album **Last of the Breed.**

**Note: If you prefer 'Australian' Country Music to Country Music of 'all genres', please express your views by sending your information to the Newsletter Editor. It would make good reading.**
